CAMP MUSKOKA

Canopy Aerial Park

Boost self-confidence by adding this exhilarating team building experience!

Our multi-element high-ropes challenge course takes groups on a 3 hour eco-adventure through the forest canopy of Camp Muskoka culminating with an exhilarating 900'+ zip line!

\$60

per student
tax included

Adventure For Everyone!

Camp Muskoka's Canopy Aerial Park offers students an exhilarating eco-adventure while exploring the beautiful forest canopy 15' to 60' above the earth. With suspended walkways, swings, climbing nets, and rope bridges, every step is an adventure! Participants build courage and confidence as they complete each element and move higher into the forest canopy.

Safety Is Paramount!

Prior to opening the park daily, the entire park and all safety equipment undergo a series of inspections by our trained and certified staff to ensure everything is up to standard. Each participant is outfitted with a helmet, harnesses, and other industry standard safety equipment. Participants are then trained in our "belay school" to learn communication and safety guidelines before ascending into the trees.

900' Zip-Line!

Experience our 900 foot gigantic zip-line! The entire park is designed as a "challenge by choice" experience where participants will improve communication skills, build confidence and team work. Our gigantic zip-line serves as a thrilling grand finale to Camp Muskoka's Canopy Aerial Park adventure.

Camp Muskoka adheres to all industry safety standards including OCA, OPHEA and the TSSA and uses only recognized high quality equipment and training designed to meet or surpass industry standards.
